- Steel Construction
- 2" Sections
- 12 Colors
- 6 Panel Designs
- 26 Window Designs

**Thermal Rating**

**Customizations**

**Low Maintenance**

**Luxury Level**

## PANEL DESIGN OPTIONS

- 1** Traditional
- 2** Ranch
- 5** Flush
- 3** Country
- 4** Cottage
- 6** Microgroove

### Deep Tongue and Groove **1**

Section joints contribute to the door's excellent strength. Intermediate seals prevent air infiltration, which enhances the insulation properties.

### 3-Layer Sandwich Construction **2**

Steel front and back construction with insulating polystyrene core increases energy savings and provides a very smooth and quiet operation.

### Well-defined Panel Embossments **3**

Easy to clean woodgrain texture, galvanized and finish painted steel provide years of trouble-free performance and beauty.

## Hörmann Innovations

### FingerGuard™ Pinch Resistant

The FingerGuard™ section joints and hinges provide an air-tight seal and prevent finger injuries both inside and outside.

### Between Section & Side Seals

Factory installed between section weather seals and side seals offer maximum protection from the outside elements while further enhancing the insulation properties of a door.

### White 11 Ball Bearing Nylon Rollers

Hörmann nylon rollers feature 11 pre-lubed ball bearings encased in a high strength steel casing that provides a quiet ride and years of reliable service.
